

FOOD CONTACT DECLARATION

The below listed stainless steel grades manufactured by Outokumpu Group

1.4301, 1.4303, 1.4306, 1.4307, 1.4310, 1.4401, 1.4404, 1.4162, 1.4462, 1.4362,
1.4410, 1.4016, 1.4509, 1.4510, 1.4521,

have in June 2012 been assessed by us to meet the requirement for food contact set out in;

European Food Contact Regulation 1935/2004

France - Arrêté du 13 Janvier 1976: relatif aux matériaux et objets en acier inoxydable au contact des denrées alimentaires.

USA – Food equipment materials NSF/ANSI 51 – 2007

Each producer who uses stainless steel in products being in contact with food has to evaluate the specific circumstances, e.g. food aggressiveness, under which the stainless steel will be used and the effect any work or tooling will have on the stainless steel suitability for food contact. Hence this document is not a warranty or undertaking for any stainless steel fitness for any particular purpose and no Outokumpu Group company have any liability, compensatory or consequential, as an effect of this document.

Outokumpu Corrosion Handbook and Outokumpu´s Steel Finder tool provide more information on suitable grades for specific environments.
